

# RIENZI

# RIENZI

Crafting products of extraordinary performance, elegant design, and uncompromising finish has earned Verity a deserved reputation for producing some of the very finest loudspeakers available at any price.

The Rienzi was conceived to bring the vision and design philosophy of Verity to a wider audience of music lovers and high-end audio enthusiasts. Achieving this goal required careful distillation of core design sensibilities to ensure the Rienzi would retain what matters most: to faithfully serve music.

The design process was extensive and required pushing the limits of all that had been learned before while employing new techniques derived from ongoing research and development. The results speak for themselves. The Rienzi is a superb overall performer that not only offers an exemplary level of coherence and musicality throughout the entire audio spectrum; it truly represents advancement in what should be expected from a loudspeaker in its class.

The Rienzi is a true Verity product in every sense and preserves Verity's enduring commitment to design, manufacture, and market loudspeakers of exceptional beauty and performance.

The Rienzi is a compact, dual-cabinet three-way loudspeaker system modeled after the acclaimed Parsifal Ovation. It is comprised of a high-performance two-way monitor partnered with a dedicated low-frequency module. Together the two cabinets form a nearly full-bandwidth floor-standing loudspeaker system. The cabinets are completely independent from one another and are isolated by a suspended platform. Like the Parsifal Ovation, the low-frequency module of the Rienzi was designed to allow its woofer to face forward or backward, providing Rienzi owners with more placement options to realize proper room integration at low frequencies.

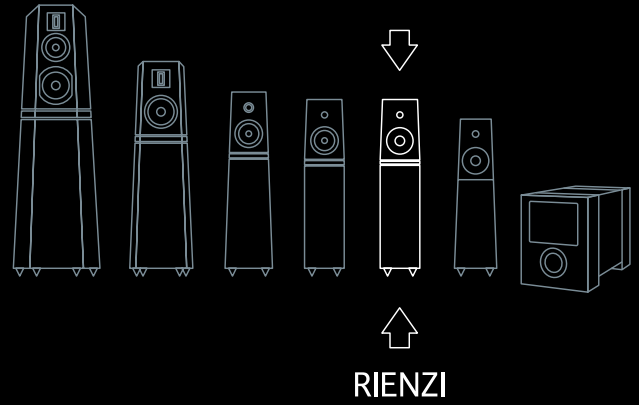

The Rienzi features cabinet construction techniques and crossover refinements that appear in the most advanced Verity offerings. It uses only the finest driver and crossover components, all carefully computer-matched and indexed for optimum imaging and soundstaging performance. The loudspeaker cabinets are manufactured and finished by the finest craftsmen utilizing proprietary techniques to ensure unparalleled performance and an appearance that has earned Verity a well deserved reputation for industry-leading quality and elegance.

The Rienzi was meticulously designed to reveal all the subtlety the best music and cinema recordings offer, however never at the expense of musicality. It is natural and articulate throughout its entire bandwidth, and at any volume level. The Rienzi will provide hours of enjoyment without fatigue.

All Verity designs are crafted with a balance of science and art. It is only through this tradition that the spirit of knowledge and craftsmanship come alive.

Please contact your nearest Verity dealer to experience the Rienzi today.

## SPECIFICATIONS

Bandwidth:

• Monitor: 60 to 22,000 Hz  $\pm$  3dB

• System: 35 to 22,000 Hz  $\pm$  3dB

Woofer<sup>1</sup>: 7" (178 mm) hard carbon paper  
Low loss rubber surround  
SD-1 motor

Midrange: 6.5" (65 mm) TPX  
Dynamic damping motor

Tweeter: ¾" (19 mm) soft dome, dual chamber  
SD-2 motor

Input Power: 25 watts ( 8  $\Omega$  ) minimum recommended

Sensitivity: 87 dB @ 2.83 Vrms & 1 meter on axis

Impedance: 8  $\Omega$  nominal, 4  $\Omega$  minimal

## DIMENSIONS & WEIGHT

W x D x H:

• Monitor: 8.6 x 10.7 x 13.4" • (218 x 272 x 340 mm)

• System: 8.6 x 13.0 x 39.0" • (218 x 330 x 990 mm)

Weight :

• Monitor : 43 lbs (20 kg) • 60 lbs (28 kg) packed / pair

• System : 127 lbs (58 kg) • 163 lbs (74 kg) packed / pair

## CABINET FINISH

Standard : Natural Sycamore & Sapele

Special Order : High-Gloss Piano Black, Silver, Makore  
& Quilted Big Leaf Maple

## FEATURES & ACCESSORIES

Connectors<sup>2</sup>: Gold-plated • removable posts

Isolation Cone<sup>2</sup>: Solid brass with stainless steel  
lockable spikes

Isolation Platform: 1" (25 mm) damped constrained wood

Jumper Cables: 5.5" (140 mm) high purity copper

Optional

Transportation Case: ATA « Air Transportation Association »  
metal case

<sup>1</sup> Complete system only

<sup>2</sup> Proprietary
