

FIDELIO ENCORE

FIDELIO ENCORE

The Fidelio, a mature-engineered, high-precision audio component, comes from a design association between world-class audio professionals and acoustic engineers. Its specific design yields an awe-inspiring level of musical satisfaction in any home setting. The Fidelio delivers a substantial improvement over all other audio systems and develops its full potential when associated with the finest ancillary equipment.

Since its introduction, the Fidelio loudspeaker won four major distinctions: The Recommended Component Class "A", Stereophile Magazine, the Reviewer's Choice and Aesthetics & Sound Award, Soundstage Magazine and the Product of the Year, Hi Fi Journal, Korea. It also received the accolade of the best audio reviews from all around the world.

The new Fidelio Encore takes its place further in redefining our commitment to design, manufacture and market loudspeakers of exceptional beauty and performance.

The Fidelio is a three-way loudspeaker featuring two independent cabinets. The top cabinet houses an excellent proprietary mid-range and a non-resonant soft-dome tweeter. The bottom cabinet houses a powerful and accurate rear-firing bass-reflex woofer. The two cabinets are firmly attached to a damped-aluminum platform system that was carefully developed to isolate critical midrange details from the low frequencies generated by the lower speaker cabinet. While providing excellent isolation between both cabinets, it also gives the tweeter a solid referential point, for uncolored and very coherent sound reproduction.

The highly innovative resonance-free cabinet features proprietary custom-designed components that combine to produce a high-resolution loudspeaker that gives a great sense of liveliness, scale, and presence whatever the listening space.

A new midrange acoustical loading has been added for higher dynamics and lower distortion. New vent flares milled in a solid piece of aluminum are employed for both the lower and upper modules. They are painted with a special finish that improves airflow for a higher signal to noise ratio. The magnetic front grille system has also been improved to give better reliability and protection.

The sonic performance is quite remarkable. While retaining the same speed, resolution and transparency of the original design, the Fidelio Encore is offering a warmer presentation. The top to bottom coherence is improved, bringing the listener even closer to the real musical event.

Furthermore, its hand-crafted Italian lacquer finish grants the owner the satisfaction of a genuine and elegant high-class product.

The Fidelio has been designed for the finest audio reproduction, whether primarily for music playback or superior surround-sound applications. It features a unique design approach that enhances distortion, speed, and power characteristics to comply with an outstanding listening-without-fatigue criterion. The Fidelio is crafted to the exacting standards demanded by Verity's commitment to excellence. The Fidelio loudspeaker redefines every aspect of high performance and will win the hearts and ears of even the most demanding music lovers.

All Verity designs are crafted with a balance of science and art. It is only through this tradition that the spirit of knowledge and craftsmanship come alive.

Please contact your nearest Verity dealer to experience the Fidelio today.

SPECIFICATIONS

| | |
|--------------|---|
| Bandwidth: | 35 to 22,000 Hz \pm 3dB |
| Woofer: | 7" (178 mm) hard carbon paper Low loss rubber surround SD-1 motor |
| Midrange : | 5" (127 mm) doped polypropylene cone 2" (51 mm) SD-1 high-power underhung motor |
| Tweeter : | ¾" (19 mm) soft dome, dual chamber |
| Input Power: | 18 watts (8 Ω) minimum recommended |
| Sensitivity: | 89 dB at 2.83 Vrms & 1 meter on axis |
| Impedance: | 8 Ω nominal, 6 Ω minimal |

DIMENSIONS & WEIGHT

| | |
|------------|---|
| W x D x H: | 8.6 x 12.8 x 39.2" • (218 x 325 x 996 mm) |
| Weight: | 150 lbs (68 kg) 270 lbs (122 kg) packed / pair |

CABINET FINISH

| | |
|----------------|---|
| Standard: | High-Gloss Piano Black |
| Special Order: | High-Gloss Silver, Makore & Quilted Big Leaf Maple |

FEATURES & ACCESSORIES

| | |
|--------------------------------|--|
| Connectors ¹ : | Gold-plated • removable |
| Isolation Cones ¹ : | Solid brass with stainless steel lockable spikes |
| Isolation Platform: | 1" (25 mm) damped aluminum |
| Transportation Case: | ATA « Air Transportation Association » metal case |

¹ Proprietary

www.verityaudio.com

Driven by a passion for excellence and focused on painstaking attention to detail, we are wholeheartedly committed to crafting sound systems capable of unveiling the timeless beauty of a true musical experience.

All Verity loudspeakers share a common trait, which is exceptional "Synergy". Our secret resides in the way we thoroughly integrate all ingredients to form a perfect balance.

You can contact Verity Monday through Friday from 9:00 A.M. to 5:00 P.M. Eastern Standard Time (EST), except on holidays.
